Profile

Working in technology and luxury customer support for almost 20 years I have obtained and unique skill set. As a tenured manager, team leader, support engineer and mentor, I have spent years perfecting the art of servicing customers and systems in extremely high pressure situations, whilst providing advanced troubleshooting techniques.

Relevant experience

Regional In store Technology Manger - Selfridges North - Apr 22 - Present

Daily duties include the smooth running of the technology department over three sites whilst interacting directly with all departments' heads to identify technical needs. Responsible for managing a team of 6 engineers across the North UK, supporting them in their roles and with approaches to complex issues. Working closely with senior management teams to recommend improved workflows and systems, and to deliver regular reports on service delivery and performance.

IS&T Retail Store Operations Apple – Jan 2021 - Apr 22

Responsible for maintaining global sites, configuring networks remotely whilst advanced troubleshooting of all in-store technologies globally such as; network access points, software and technician tools, staff and managerial hardware systems, interactive point-of-sale systems and in-store audio devices. Attended daily meetings with global staffing networks to communicate issues and provide advanced troubleshooting techniques whilst liaising with a global, remote team.

Genius, Apple; Leeds – September 2019 - present

provide advanced troubleshooting for customer devices, attending daily face-to-face interactions, resolving extremely technical issues primarily for the Macintosh ecosystem in an organised and timely manner. I provide support and mentorship for a team of technical experts, whilst also assisting in hardware and software repairs on mobile devices. I would also facilitate training sessions through downloads, one-to-one mentorship and remote WebEx sessions.

Technical Expert, Apple; Leeds – 2018 - 2019

Maintaining, repairing and troubleshooting mobile devices across the Apple ecosystem. My responsibility was also to keep the Genius Bar running on time by liaising with my lead geniuses and my managers alike. I was responsible for driving ownership of all mobile devices whilst making customers aware of the iPhone upgrade program alongside other services such as AppleCare Apple arcade on Apple TV. I would mental and train the technical specialists whilst keeping my fellow experts up-to-date with the latest processes and repair and troubleshooting mobile devices.

Technical Specialist , Apple; Leeds – March 2016 - 2018

As a technical specialist my main priority was to Carry out one-to-one appointments and troubleshoot a wide range of Apple devices. I would support my technical experts by staying in a timely manner documenting issues thoroughly and keeping my knowledge of Apple devices up-to-date. I would support the product flow by giving on-site support for any technical issues that they may be having with their interactions

Apple Support, iStore; Leeds – Feb 2016 - Apr 2016

My role at the iStore was centred around offering hardware support to customers with Apple products. My responsibilities included; providing solutions to customer's problems, attending trade shows and conferences, scheduling work and creating quotes.

Education FdA Business and Management – Leeds City College, 2015 -2016

Media and Film Studies National Diploma – Park Lane College, Leeds, 2002-2003

9 GCSE's A-C, Ralph Thoresby High School, Leeds, 1996 - 2001
